

Key

Individual Naming

The Key USB stick is one of this year's most innovative products - perfect to unlock the potential of your next promotional campaign. Made from highly polished stainless steel, this key shaped USB can be laser engraved with your logo and corporate message in precise detail. Use of the latest integrated circuitry made it possible to keep the USB key dimensions almost identical to those of a standard door key so that it fits snugly onto your keyring. Despite being compact in size, stylish and of high calibre, we've managed to keep the Key USB price as competitive as our regular branded USB sticks.
